

ATTENTION: PLEASE READ BEFORE INSTALLING THE ANT-36000

PLEASE UPGRADE THIS UNITS FIRMWARE BEFORE USE

We would recommend that you update the firmware to version V4.105B02.

This can be found from our website: www.antrica.com

-> Downloads (from top menu) -> Firmware ->

Scroll down to find “Decoder” and then click on “ANT-36000 HDMI,3G HD-SDI & Composite Output Decoder”

Decoders

-  [ANT-36000 HDMI,3G HD-SDI & Composite Output Decoder- 100 Channel & Quad view ONVIF H.264 HD 1080P60 IP Video Decoder](#)
-  [ANT-37000 SpotBox4K Multiviewer 1.4.9.16 views- 4K UHD HDMI Displav decoder for ONVIF H.264 & H.265](#)

-> This opens a new browser tab to our Dropbox download folder

The first item is a guide to the upgrade process “ANT-36000_DecoderUpgradeGuide.pdf”

The upgrade file is located within the folder “V4.105B02_T913”

This folder contains

- [ANT36000.V4.105B02-052720.tus](#) (This is the upgrade file you need - 39MB)
- [ANT36000.V4.105B02-052720_CHKSUM.txt](#) (This is the Check Sum information for the upgrade file)
- [ANT36000.V4.105B02-052720_INFO.txt](#) (Indication of installed version)

If you cannot access Dropbox please contact us support@antrica.com and will supply the upgrade file via another method
