

Indigo Vision
Control
CenCentre
Record Quad

Summary: The ANT-36000 decodes 4 streams and outputs them as a quad.
The Quad is output as HDMI from the ANT-36000.

The HDMI is fed to the 35000A encoder
The Encoder streams this to Indigo Control Centre as a single stream to be recorded (Quad)

The ANT-35000A encoder has an HDMI Pass through output that can be used to drive a display

ANT-35000A Encoder

ANT-36000 Decoder

Blue= HDMI
