1.4. Click "Config Backup" and an Internet explorer popup window appears

liew and track your	downloads	Search	downloads		5
ame		Location	Actions		
config.cfg 192.168.0.131	108 KB	Do you want to open or save this file?	Open	Save	•
config.cfg 192.168.0.137	111 KB	Downloads		Open	•
config.cfg 192.168.0.133	108 KB	Downloads	[Open	•
config.cfg 192.168.0.132	108 KB	Downloads		Open	•
config.cfg 192.168.0.130	98.2 KB	Downloads		Open	•

1.5. Click "Save" and the config file will be saved to your default downloads location, with the name "config.cfg"

For PC this could be:

C:\Users\<User ID>\Downloads

Where<User ID> will be the account name used to log in the PC

2. Config file load

The load config file assume the new config is using the same IP address as the current IP setting of the encoder.

2.1. Open web page & Click "Setup"

2.2. Click "system"

2.7. Internet Explorer show the message "Config restored successfully" and a pop-up message is show.

C () () http://192.168.0.131/restore.html	- C Search
Config Restore Process ×	
File Edit View Favourites Tools Help	
Config restored successfully.	Message from webpage × ×
	ОК

- 2.8. Click "OK" on the popup -
- 2.9. Another pop-up window appears, Click "NO" on this window

Windows Internet Explorer	\times
The webpage you are viewing is trying to close the window. Do you want to close this window?	
Yes <u>N</u> o	

2.10. Remove the "restore.html" from internet explorer address bar (see the image in 2.7 above). The web GUI now shows the "Live" web page, as shown in 2.1 .

IF the IP address of the config file is different for that of the encoder at the start of the config load section, Ture Manger maybe require to find the IP address of the encoder.
